

Group Exercises

- Provide the class with a meaningful explanation about the connection between Isaiah 40 and the preceding and following chapters.
- Find and discuss at least two New Testament passages that contain some of the wording or concepts that we find here in Isaiah 40.
- Bonus: come up with some historical or scientific facts that illustrate some of the points that Isaiah makes in this chapter.

Be sure to use all the resources at your disposal (*everyone* in your group, everyone's reference and study Bibles, the outline handouts, both computers, and the internet).
